Portfolio: portopedia.netlify.app

PROFESSIONAL SUMMARY

Aspiring AI and Data Science professional (Final Year B.Tech) with hands-on experience in machine learning, data preprocessing, full-stack web development, cloud computing, and DevOps automation. Demonstrated ability to build end-to-end AI-powered platforms, cloud-native systems, and data pipelines. Proven track record through internships, hackathons, and independent project development. Highly adaptable, fast learner, and strong team collaborator — open to internship and full-time opportunities.

EDUCATION

B.Tech – Artificial Intelligence & Data Science (Pre-Final Year) | Dr. NGP Institute of Technology *2023 – 2027*
Coimbatore, India | CGPA: 70% (up to 5th Semester)

Diploma in Computer Programming | IFC-INFOTECH Computer Education *Apr 2023 – Jul 2023*
Bhavani, Erode | First Class

Senior Secondary – 12th Standard | SSM Central School *2018 – 2023*
Namakkal, Tamil Nadu

INTERNSHIP EXPERIENCE

Software Developer Engineer Intern | BLUESTOCKS FINTECH *Jan 2026 – Feb 2026*
Remote

- Contributed to software development and REST API integration using backend frameworks.
- Developed a web application to filter and segment customers based on personalized needs and criteria.

Business Development Intern | GaoTek Inc. *Dec 2025*
Remote

- Assisted in business development, market research, and competitive analysis activities.
- Supported client outreach and pipeline management using Apollo.io CRM tooling.

Cloud Computing Intern | Accent Techno Soft *2024 (15 Days)*
India

- Completed an intensive 15-day cloud computing program with hands-on lab exercises.
- Gained practical exposure to cloud infrastructure concepts and deployment on AWS (EC2, S3, IAM).

Web Development Intern | TechnoHacks Solutions Pvt. Ltd *May 2024*
Remote

- Developed and maintained responsive web pages using HTML, CSS, and JavaScript.
- Delivered user-friendly, cross-browser web interfaces in a collaborative agile environment.

PROJECTS

Cloud DevOps CI/CD Pipeline – Automated Deployment Infrastructure

Technologies: AWS | Docker | Terraform | GitHub Actions | Jenkins | Linux | Kubernetes | Nginx

- Designed and deployed a fully automated CI/CD pipeline on AWS using GitHub Actions and Jenkins, reducing manual deployment effort and enabling continuous delivery workflows.

- Provisioned cloud infrastructure as code using Terraform, Docker, including VPC, EC2 instances, security groups, and load balancers, enabling reproducible and version-controlled environments.
- Configured Nginx as a reverse proxy and load balancer for multi-tier application routing, with monitoring integration for uptime and performance tracking.

CodeSentinel DP – AI-Powered Developer Lifecycle Platform

Technologies: Python | FastAPI | React | ChromaDB | LangChain | Groq API | RAG

- Built a unified developer platform integrating 13 AI-driven features including code analysis, QA generation, CI/CD pipeline correction, and incident debugging.
- Implemented a RAG-based chatbot with voice interaction using ChromaDB, LangChain, and Groq API for hallucination-free, real-time developer assistance.

Virtual Try-On – AR-Based Clothing Fitting

Technologies: JavaScript | Three.js | Flask | WebAR | Android (APK)

- Developed a WebAR application for virtual clothing try-on with photo/video capture and manual clothing adjustment features.
- Converted the web application to Android APK format, expanding reach to mobile users.

Animal Disease Prediction System

Technologies: Python | Flask | Random Forest | Scikit-learn | HTML | CSS | JavaScript

- Built a Flask + Random Forest ML application to predict animal diseases based on symptoms, breed, and animal type.
- Designed an intuitive frontend for data input and result visualization.

Resume Checker using NLP & OpenAI

Technologies: Python | NLP | Scikit-learn | OpenAI API

- Built an AI-powered resume evaluation system that extracts and matches keywords from resumes against job descriptions to calculate relevance scores.

Exploratory Data Analytics (EDA) Tool

Technologies: Python | Pandas | NumPy | Matplotlib | Scikit-learn

- Built a data preprocessing and visualization tool with integrated linear and logistic regression visualizations for actionable data insights.

TECHNICAL SKILLS

Programming	Python, Java, HTML, CSS, SQL
AI / ML / DL	Machine Learning, Deep Learning, NLP, LLMs
Cloud & DevOps	AWS (EC2, S3, IAM), Docker, GitHub Actions, CI/CD, Linux
Data & Visualization	Power BI, Tableau, Pandas, NumPy
Tools & Platforms	N8N, Apollo.io, Figma, Git
Soft Skills	Strong Communication • Team Collaboration • Problem-Solving • Adaptable • Remote/On-site

CERTIFICATIONS

- Reinforcement Fine-Tuning LLMs With GRPO – DeepLearning.AI
- Data Analytics Traineeship – Maiyyam
- Certified Lean Six Sigma AI Yellow Belt – S&G
- Data Analytics with Python – MyCaptain
- UI & UX Designing with Figma – Maiyyam

- Scout Student – Rajyapuraskar Camping Experience
- State Level Spell Bee – English Literature
- British Airways Data Science Job Simulation – Forage
- Tata Group Data Analytics Job Simulation – Forage

EVENTS & ACHIEVEMENTS

Hackathons

- IBM Bob Dev Day x Watsonx.ai – 48-Hour Hackathon (May 1–3, 2026)
- AMD x LabLab.ai – 72-Hour Hackathon (May 6–9, 2026)
- Innomatics Research Labs – 24-Hour AI Hackathon (Sep 21–22, 2025): Top 32 out of 1000+ teams
- HackMatrix – Nandha College of Engineering (Mar 17–18, 2026): 24-Hour Hackathon

Workshops

- Full Stack Development with Cloud – Livewire Coimbatore (Dec 17, 2023)
- Agentic AI Security and Red Teaming – NIT Trichy

Paper Presentations

- DHRUVA 2024, Karpagam College of Engineering (Mar 15, 2024) – Introduction to Screenless Display
- NIT Trichy Summer Internship Selection – Animal and Plant Disease Prediction using ML and CNN

Idea Presentation

- PINNACLE 2K24, Coimbatore Institute of Technology (Mar 22, 2024) – Marine Life Saver
